

**Library Materials Opt- Out Form
King George High School**

At KGHS, providing a variety of reading materials as well as giving students opportunities to engage in multiple perspectives is incredibly important to critical thinking and social emotional learning. Motivating teenagers to read is sometimes difficult with so many competing interests and responsibilities including participating in clubs, sports, class loads, etc. and when they do want to read it is often books that they see themselves in and discuss topics that they can relate to on a personal level.

The American Library Association recognizes 13-18 year olds as Young Adults and themes, characters and settings are wide and extremely vast. Having said this, not all material will be appropriate for every reader due to a variety of factors like age, maturity level, reading ability, personal values, etc. In addition, young adult books at the high school level can often have topics that include more mature themes especially around dating, relationships, racial issues, sexual orientation, etc. so it may be necessary to assist students and families on what materials are best suited for their child.

As Librarians and Teachers, we respect your right as a parent to judge the maturity of your child; therefore, all books will be made available to all students unless an Opt Out Form is signed and on file. With this form you can indicate particular titles that you do not want your child to access.

If you have any questions, or wish to discuss any of our titles, please feel free to call the school to discuss this with the Library Media Specialists.

Please complete the requested information and return to King George High School. This form is applicable for the current school year only.
